ABSTRACT

This guide provides descriptions of 2,239 summer and short-term study-abroad opportunities that range in length from one week to several months. Introductory material provides information on the Institute of International Education (IIE), IIE publications, how to use the guide, abbreviations, planning for study abroad, additional resources for study abroad, and suggestions on how to read study-abroad literature. The main body of the guide consists of individual program descriptions arranged alphabetically by geographic region and country. In addition to specific country and city listings, there is a "worldwide" section for programs that are active in more than one world region. Each listing provides information on: institutional program sponsor, name of the program, program site, dates, subjects of study, eligibility, credit, instructional language and methods, cost, housing, deadline for application, other information, and contact information. Programs are indexed by sponsoring institutions, consortia, fields of study, special options, cost ranges, and duration. (RH)

To Send IIE Information on New Programs

If you offer a study abroad program not listed in this book, you may ask to be added to the mailing list for our annual summer survey. Enclose current printed information with your letter. If your program is appropriate for either ***Academic Year Abroad*** or ***Vacation Study Abroad***, IIE will send our New Program Questionnaire to you next summer. The books are intended to offer information on postsecondary programs up to one year in length. Mail or fax your request to:

Advertising Policy

Advertising in IIE's Study Abroad books is open to US and foreign higher educational institutions and private organizations that sponsor study abroad programs listed in ***Academic Year Abroad*** or ***Vacation Study Abroad***.

The Institute of International Education does not attempt to evaluate programs listed in the books, nor can it verify statements made by advertisers in their ads. Inclusion of a program or advertisement does not imply IIE recommendation, nor does omission imply IIE disapproval. Advertisers are solely responsible for the accuracy of the information in their advertisements.

Program listings are free of charge and are provided by IIE as a public educational service. They are not contingent upon the purchase of advertising space by the sponsor. See **Index I: Sponsoring Institutions** to find the program listings of the advertisers listed below.

Institute of International Education

The Institute of International Education (IIE) enables tens of thousands of students and scholars to engage in international study each year. The Institute also serves as an intellectual resource to higher education and to international exchange. IIE's extensive conferences and policy papers, statistics and reference books, and internet services all play a role in making international education a seminal force in many lives and careers. IIE students and scholars learn from their overseas experiences—and return home to apply and share what they have learned. Through these services, IIE becomes a catalyst for effective change in the world.

Eighty Years of Experience

An independent nonprofit organization with offices worldwide, IIE is the most experienced higher educational exchange agency in the United States. As a broadly-based international education provider, its substantive programs benefit US students, teachers and university faculty, international students and scholars, artists, corporate staff and mid-career professionals, government and community leaders, scientists and technicians. IIE organizes the full range of educational and training alternatives, including short-term practical experience, advanced degree placement, intensive English study, and customized professional development programs of travel, study and conferencing.

Global Activity and Impact

On behalf of the US Department of State, the Institute administers the Fulbright Program, the US Government's most successful public diplomacy initiative. IIE works to ensure our shared future through targeted energy and environmental training programs. IIE has participated in democracy-building and civil society initiatives throughout the newly-independent states of the former Eastern bloc and has played a significant role for over 20 years in training those who now manage South Africa's post-apartheid society.

Statistics

IIE's programs benefit 18,000 men and women from 175 nations each year. The Institute is the single largest sponsor of international students at US universities. Its membership association includes 600 higher educational institutions in the US and abroad. IIE's *Open Doors* survey is the definitive statistical profile of 89,000 US students abroad, as well as 458,000 international students and 62,000 overseas scholars at US universities. The Institute's 400 staff members in twenty offices worldwide provide a unique resource of area expertise, skills and experience. ***IIE Online***'s 12,000 digital documents form the world's largest international education information space.

Sponsors and Funding

IIE manages 250 programs for sponsors including: the US Agency for International Development, the Government of Japan, World Bank, Ford Foundation, MacArthur Foundation, Educational Testing Service, Levi Strauss Foundation, GE Fund, and 200 other corporations, foundations, governments and international organizations that work closely with IIE to achieve shared goals.

In implementing these projects, IIE disburses $100 million annually for programs and services. Most funds provide direct support to sponsored students and professionals. Others materially assist the universities and research and training facilities at which IIE grantees work. Funds from individual donors, foundations and corporate grants are critical in enabling IIE to expand its needed services throughout higher education and the international community.

Services

IIE Passport: www.iiepassport.org

IIE Passport is the Institute's brand-new US education abroad website. With additional content added by program sponsors, an option to save searches, and many other valuable new features, *IIE Passport* is now the single most complete and comprehensive web resource on study abroad for US students.

IIE Online: www.iie.org

Supported by a search engine and extensive menus designed to take advantage of the superior hypertext linking capabilities of the World Wide Web, *IIE Online* contains more than 12,000 screens of digital content and is still growing. The Fulbright section includes grant descriptions for US graduate student Fulbrights, and in-country contacts for citizens of other nations interested in securing Fulbright Fellowships.

Fulbright Program

US students enrolled in a US college or university must apply through a campus Fulbright Program Adviser. US citizens not formally enrolled in a higher educational institution may request applicant information on Fulbright Program grants from IIE's US Student Programs Office.

Foreign nationals who wish to apply for financial assistance through the Fulbright Program to study in the United States must apply through the binational Fulbright Commission or designated US diplomatic post in their home nation. IIE cannot accept applications from foreign nationals for the Fulbright Program.

IIE provides management services to the Fulbright Program on behalf of the US Department of State Bureau of Educational and Cultural Affairs. The US Department of State is the sponsor and funding agency.

Membership Services

As members of IIE, 2,000 campus professionals worldwide receive complimentary copies of IIE's invaluable information resources, including *Academic Year Abroad* and *Vacation Study Abroad*, now with their brand-new companion website, *IIE Passport*. Members receive IIE's e-mail and printed newsletters, *IIE.Interactive* and *Reaching Partners in International Education*; participate in IIE's seminars and university fairs; and benefit from IIE services targeted to their specific needs. US and overseas universities and US nonprofit organizations may apply for membership. Contact: Manager, Membership Services, IIE, 809 United Nations Plaza, New York NY 10017-3580 or *e-mail*: membership@iie.org.

US and Overseas Offices

The Institute's central office is located in New York City. Other US offices are located in Washington DC, Chicago, Denver, Houston and San Francisco. IIE maintains overseas offices in Mexico City, Mexico; Beijing and Hong Kong, China; Bangkok, Thailand; Hanoi, Vietnam; Manila, the Philippines; Budapest, Hungary; Moscow, Russia; Kiev, Ukraine; New Delhi, India; Cairo, Egypt; Windhoek, Namibia; and Pretoria, South Africa. In Indonesia, IIE is represented by the International Education Foundation in Jakarta.

IIE Study Abroad Books

The Institute of International Education (IIE) has published guides to study abroad for 50 years. IIE's two companion volumes, *Academic Year Abroad* and *Vacation Study Abroad*, are the only comprehensive, annually-updated reference directories to international study for US students.

Information contained in these two books is based on a survey conducted in the summer of each year. Surveys for the 2000/2001 edition of the IIE books were sent during the summer of 1999. The surveys were mailed to 2,000 organizational sponsors of programs listed in the 1999/2000 edition, and to all organizations that wrote to the IIE study abroad editor requesting to be listed.

US colleges and universities—over 600 of which are IIE member institutions—have traditionally been highly responsive to the Institute's surveys for *Academic Year Abroad* and *Vacation Study Abroad*, as have many other organizations that offer international study opportunities to US nationals. Given this cooperation, the books are as comprehensive as IIE can make them.

IIE tries to make the information contained in the two books accurate and useful. Bear in mind, however, that information-gathering takes place long before these books are published—often before program arrangements are final. For this reason, it is a good idea to use the IIE books only as general resources for locating programs of interest. Final and full information on any program must be obtained directly from the program sponsor.

Criteria for Inclusion

The IIE books provide information about postsecondary study abroad programs open to US citizens who are undergraduate, graduate or postgraduate students; adult or continuing education students; or professionals in various fields including business, education, health and law. The large majority of programs are intended for undergraduates, but IIE actively seeks information about international programs of interest to other categories of learners.

Most programs listed in these books are designed especially for US students. However, a substantial minority of programs are more broadly international. For example, the IIE books list the international student programs of many foreign universities. These programs are open to students from all nations who can meet the eligibility requirements, not just students from the United States.

All programs must take place outside the 50 United States. Programs sited in US territories and possessions are eligible for inclusion.

Academic Year Abroad and *Vacation Study Abroad* describe programs that range from one week to one calendar year in length. Further information on the duration of programs listed in each of the books is provided below.

Program sponsors include US accredited colleges and universities, which sponsor the majority of programs in both books; foreign universities, language schools, educational associations, binational agencies and other organizations.

Many programs offer academic credit that may be used in partial fulfillment of requirements for an academic degree. It is usually not possible to complete all course requirements for an academic degree in the period of time covered by the programs in these books, nor is that their purpose.

Academic Year Abroad

Academic Year Abroad offers information on study abroad programs that take place during the academic year (September through June), and that are at least one academic quarter in length (usually 8 to 10 weeks).

Of more than 2,600 programs listed in the current edition, some 75 percent are sponsored by US accredited colleges and universities. Almost 500 programs are offered by institutions without US accreditation: foreign universities and institutes, adult education centers and other US and foreign organizations.

Vacation Study Abroad

Vacation Study Abroad provides information on summer programs of any length from one week to several months—and on short courses of varying lengths in the fall, winter or spring. Some 60 percent of programs are sponsored by US accredited colleges and universities.

In addition to US higher education-sponsored programs, *Vacation Study Abroad* describes offerings of many foreign universities; language schools and other organizations. Language school programs often allow participation for lengths of time that vary from one week to several months. *Vacation Study Abroad* also contains many programs that combine study with extensive travel over short periods of time, or that focus on topics of broad interest, and therefore are especially appealing to adults.

How to Use This Book

The information contained in this book—complemented by the guidance of an experienced study abroad adviser if you are currently enrolled at a college or university—can help you plan what may be one of the most rewarding experiences of your life.

This section explains the overall organization of the book, how individual program entries are organized, and the terms used in the program descriptions. A list of abbreviations used in entries is also provided.

Overall Organization

Program entries are organized first by geographical region: Africa South of the Sahara, Asia and Oceania, Eastern Europe, Western Europe, the Middle East and North Africa, and the Western Hemisphere. Each world region is subdivided alphabetically by country and then by city. Within each city section, program entries are alphabetized by name of sponsoring organization.

In addition to specific country and city listings, there is a "Worldwide" section for programs that are active in more than one world region. Similarly, there are "More Than One Country" listings at the beginning of each regional section, and "More Than One City" listings at the front of each country. Remember to consult these sections in addition to listings for specific cities and countries.

The book also provides useful information in its introduction and indexes. The section you are now using provides specific information on how to use program descriptions to identify programs of interest to you. The following section, "Planning for Study Abroad," offers overall guidance on the steps students should follow in organizing a productive study abroad experience.

Indexes are:

■ Sponsoring Institutions

This is an alphabetical index of all US and foreign colleges, universities, consortia and other organizations that sponsor study abroad programs described in this book.

■ Consortia

A consortium in this book is a group of colleges and universities that jointly offers study abroad programs. The index lists each consortium's member institutions.

■ Fields of Study

Programs are indexed by field of study and by country.

■ Special Options

This index is a guide to programs open to students other than undergraduates, e.g., precollege students, graduate students, adults, teachers; and to programs that offer special opportunities, e.g., internships, independent study, study tours.

■ Cost Ranges

This is an index of programs available at varying levels of cost.

■ Duration

In *Vacation Study Abroad*, which contains entries on programs of widely varying length, there is also an index of programs by duration in weeks. *Academic Year Abroad* does not have this index, because the overwhelming number of programs of semester or academic year length would make a duration index less useful.

Sample Entry

The sample entry describes a program that does not exist. In fact, the program entry could not exist, because it offers information under virtually all headings available as options in our computer database. No study abroad program offers quite that many options, although a few come close. The advantage of this mythical program is that it allows us to provide an example of the many different kinds of useful data you may encounter in using this book, and to explain what they all mean.

Major headings are printed in **boldface**. Subheads under the major headings are printed in *italic* type. The paragraphs below explain the terms used under each major heading in a program description, using the sample entry as an example.

Program Sponsor and Name

> ***1999***
> **EXEMPLARY STATE UNIVERSITY**
> ***Japanese Business and Civilization Program***

Each entry begins with its program number, followed by the sponsor name and program title.

Programs are numbered in consecutive order throughout the book. All indexes are to the program number, rather than to the page number on which the program entry appears.

Name of sponsor institution is the second item of information to appear. All entries are indexed by sponsor in **Index I: Sponsoring Institutions**. Entries may list up to three cosponsors. In some cases, a consortium—group of more than three colleges and/or universities—sponsors a program. For such listings, the sponsor name used in the entry and in **Index I** is the consortium name.

Consortium-sponsored programs are also indexed by consortium name in **Index II: Consortia**, which provides lists of all member colleges and universities in each consortium. In consortia program entries, the Contact heading refers the user to the index for the consortium's membership, using the standard phrase, "See Index II for members."

Site

> **Site:** Japan: Kyoto *Host inst:* Kyoto Mgmt Inst

The country and city in which the program takes place are provided first under the *Site:* heading.

Name of host institution is next. The host institution is the school or organization that provides the premises and facilities for classes connected with the program, typically through a contract or other agreement with the sponsor. The sponsor, not the host institution, is the organization with legal, financial and administrative responsibility for the program. The host institution may provide staff and services to the sponsor in addition to the use of its facilities.

Dates

> **Dates:** Aug-Dec or Jan-May or Jun-Jul

Exact dates are stated if provided by the program sponsor. Remember that final program dates are often not available at the time our survey is conducted, many months before the program actually begins. For current information, contact the sponsor.

Subjects

> **Subjects:** Banking, Business/management, Civilization/culture, Economics, Graphic arts/design, Japanese language (int/adv), Japanese studies

Up to fifteen fields of study offered by the program are listed here. Some programs provide opportunities in more than fifteen fields of study, e.g., the international student program of a foreign university. In these cases, "Full curriculum" appears as the first subject listing, to indicate the availability of a wide range of courses. Contact the sponsor for a course catalog to learn about the full range of fields of study.

Many study abroad programs offer opportunities to learn foreign languages. When sponsors provide the information, program entries indicate the proficiency level of language courses offered: beginning, intermediate and/or advanced (beg/int/adv).

Consult **Index III: Fields of Study** for assistance in locating programs in a specific field. Contact the program sponsor for more detailed course information.

Eligibility

Eligibility: ***Own students preferred.*** *Level:* jrs, srs, grads, adults, teachers, professionals, precoll *Requires:* 3.00 GPA, previous study in field, 2 yrs coll Japanese *Age:* min 18, max 81, avg 22

If a program restricts eligibility, the phrase "own students only," or a similar phrase defining the restriction, e.g., "own students preferred," "state residents only," will be highlighted in bold italics. A program that does not include a highlighted restriction is open to all applicants at the appropriate academic levels from other institutions.

The IIE books include programs that colleges and universities limit to their own students, or otherwise restrict, because many students first learn of their own institution's programs from these books. Also, study abroad advisers find it useful to know about the programs of other colleges and universities, and can occasionally arrange access to another institution's program. For these and other reasons, IIE tries to make its study abroad reference books as complete as possible.

Level: lists the academic levels that may enroll in the program. Most programs are intended primarily for undergraduates, and the abbreviations used for the four undergraduate levels are: fresh, sophs, jrs, srs, for freshmen, sophomores, juniors and seniors. Many programs are also open to graduate students (grads), adult learners, precollege students (precoll), teachers and professionals. "Adults" usually refers to high school graduates who are at least 18 years of age, are often older than the typical undergraduate and are not currently enrolled in a degree program at a US college. "Precollege" generally means high school graduates who have not yet entered college. "Professionals" are those actively working in a field as a career who may wish to improve their skills by international study, e.g., health professionals studying the public health systems of other nations.

Adult learners often wish to study abroad as a way to productively combine travel and learning. Precollege students may want overseas experience before they begin their undergraduate education. Teachers and professionals enhance their qualifications through international study. To help graduate students, adult learners, precollege students, teachers and professionals find the programs accessible to them, use **Index IV: Special Options**.

The *Requires:* subheading lists eligibility specifications, which most typically are a minimum Grade Point Average (GPA), previous study in the field, or a minimum level of language proficiency or other course prerequisite, e.g., 2 yrs coll Japanese. Since space considerations do not allow us to describe requirements in complete detail, it is a good idea to ask the program sponsor for full information.

Some programs have minimum (min) or maximum (max) age limits. Others provide an average (avg) student age as an indication of the typical age/academic level of enrolled students.

Credit

Credit: *Undergrad:* 14-15 Grad: 10-12 *Doc:* transcript, certificate, diploma, degree

Availability of academic credit is indicated. If a unit other than semester hours is used by the program sponsor to define credit, it is specified. Undergraduate credits are listed first, then graduate credits.

Most foreign institutions do not use the US system of academic credit and, thus, do not actually grant credit for successful completion of courses. Many of them are familiar with US credit requirements, however, and have indicated the number of credits generally accepted by US colleges for the program or course listed.

Foreign schools and other organizations sometimes arrange to transfer credit through an accredited US college. When programs offer the transfer credit option, the name of the US school granting transfer credit is given.

The document awarded for successful completion of the program is listed after the subhead *Doc:*.

Remember that the award of credit by your home institution is never automatic. It must be arranged in advance. Consult your academic or study abroad adviser about receiving academic credit before you enroll in a program.

Instruction

Instruction: *In:* English, Japanese *Format:* art studio, directed field study, independent study, internship, lab, lang study, lecture, music lesson, practical training, seminar, student teaching, study tour, tutorial, volunteer/svc, workshop *Students:* mainly US

Language of instruction appears first under this heading. Where more than one language is used in teaching classes, consult the program sponsor for exact information. Foreign language courses are usually taught in the language being studied. Other courses may be taught in English or the language of the host country. For courses taught exclusively in a foreign language, be sure to determine in advance whether your level of fluency is sufficient.

Entries then indicate *Format:* which may be lab, language study (lang study), lectures, seminars, tutorials—or such special options as art studio, internship, independent study, music lesson, practical training, student teaching, study tour, directed field study, volunteer/svc (voluntary service projects), or workshop. Special options such as these are indexed in **Index IV.**

The final subhead, *Students:*, provides information on class composition. Some programs are arranged especially for US students (mainly US). Others mix US students with other foreign students (international classes, abbreviated as "intl"). Still others integrate US students into classes taken mainly by local students to provide greater exposure to the host country culture (mainly host country). Many programs offer a variety of class experiences to US students. For example, US students may take some classes as a group and be integrated with host country students for other classes (an option indicated as "US & host country.") Other combinations that occur: intl & host country, US & intl.

Costs

Costs: $10,000 (1999/2000) incl tuition, housing, all meals, intl airfare, insurance, fees, excursions, books/materials
Nonrefundable fee

We have asked sponsors to provide a package amount for participation in the full program. This information is followed by a list of items the program fee includes: tuition, housing, all meals (where three meals per day are usually provided), some meals (fewer than three per day), international airfare (between the US and the program site), health/ accident insurance, fees connected with participation in the program, excursions, books and materials, railpasses and other items.

If the program sponsor requires a nonrefundable application fee, the requirement is indicated by the words "Nonrefundable fee."

A cost amount followed by the year in parentheses indicates that fees were applicable for that year. Since IIE conducts research for this book well in advance of actual program dates, costs for the year in question are sometimes not yet finally established at the time sponsors provide information. In such cases, sponsors typically provide information on their current fees instead. In either case, the figure given may require clarification or adjustment. Many factors can affect costs, e.g., fluctuations in exchange rates, a change in the mix of services provided for the program fee, etc. Always contact the sponsor directly for the most current information in this important area.

Index V: Cost Ranges provides guidance to programs at varying levels of cost.

Housing

Housing: *Arr by pgm:* residence halls with local students, apts, homestay, pensions, hotels, hostels

Most programs provide housing for members of the group. Entries indicate first who arranges housing—the sponsor ("Arr by pgm"=Arranged by program) or the student ("Arr by student"= Arranged by student), and second, what types of housing are available: residence halls, apartments, homestays (living with a family in a private home), pensions, hotels or other accommodations.

Deadline

Deadline: Feb 1 for fall; Oct 1 for spring

In most cases, deadlines are for the receipt of completed applications with all necessary supporting material: transcripts, recommendations, deposits, etc. Find out well in advance what application material is needed.

Some programs will admit students after the deadline is past, but usually only when a program has not filled all allotted places. It is best not to count on luck. *Apply early!*

If there is a financial aid deadline for students applying for scholarships offered by the program, it will be indicated here.

Other Info

Other Info: *US accredited sponsor:* yes *Began:* 1970 *In coop with:* Kyoto Higher Educ Authority *Orient:* in US & abroad *Activities:* excursions, field trips, pgm travel, cultural events, sports *Misc:* 2 wk bus internship Kyoto Corporation. May contact former participants. *Financial aid:* scholarships, work-study *URL:* http://www.esu/intpgms.edu

All program descriptions indicate whether an accredited US college or university sponsors the program. This information is especially important for those students who need academic credit for their study abroad.

The year in which the program began is provided next, followed by the name of any organization cooperating with the sponsor in offering the program.

Also included is the availability of orientation (*Orient:*) in the US and/or abroad. Additionally, many programs offer activities such as excursions, field trips, program-related travel (pgm travel), cultural events and sports. An excursion or field trip is usually local and does not involve extended time away from the program site. In contrast, program travel may last up to one month or more and involve extensive distances and lectures or research on distant sites.

The miscellaneous (*Misc:*) subheading is used for information that does not fit other headings, but is nonetheless significant. The phrase "May contact former participants" indicates that the sponsor, if requested, will facilitate contact with a former student—by mail, phone or in person. Some sponsors routinely invite former students to their orientation sessions. Make every effort to attend these sessions. The information you acquire from other students can be valuable in selecting the right program and preparing for a rewarding experience abroad.

If financial aid other than loans is available to program participants, the *Financial aid:* subheading will specify either "scholarships" and/or "work-study."

The *URL* (Uniform Resource Locator) subheading indicates the program sponsor's home page address on the World Wide Web.

Contact

Contact: Intl Pgms, Exemplary State Univ, Exemplary CA 99009 *Ph:* (800) 222-1111; (714) 999-8877 *Fax:* (714) 999-6655 *E-mail:* ip@esu.edu **Or Contact:** Exemplary State in Kyoto, Kyoto 111, Japan *Ph:* (99-222) 55-2222 *Fax:* (99-222) 55-3344

The primary contact's mailing address for information and applications is listed first, with a toll-free phone number, if available, and other phone, fax and internet numbers. A second or third contact may also be listed, often in cases in which two or three colleges cosponsor a program, or in which a foreign school has both a US representative and a foreign admissions office.

Programs sponsored by consortia typically indicate the administering school as the primary contact, preceded in the program description by a reference to "See Index II for members." **Index II: Consortia** lists all member colleges and universities of a given consortium. The usual rule in this situation is that students at member schools apply to their campus study abroad office, while students at nonmember schools should contact the main consortium office or the administering school.

Important Notice

The Institute of International Education does not attempt to review or evaluate programs listed in this book. Inclusion of a program does not imply IIE recommendation, nor does omission imply IIE disapproval. Program evaluations and additional information must be requested directly from the program sponsor, NOT from IIE.

Planning for Study Abroad

Study abroad can be an extraordinary adventure in which the educational experiences do not start or stop at the classroom door, or even at the edge of the campus. In contrast to the relatively sheltered life found at many US colleges, study in a foreign setting exposes the student to a whole gamut of new cultural experiences—experiences that open up fresh perspectives on international political and economic issues, interpersonal relationships and ultimate career choices.

Even an adventure, however, benefits from planning. How well you achieve your immediate personal and academic objectives, as well as your long-range career goals, depends heavily on choosing the right country, institution and program. Because of the complex choices to be made, planning should begin a full year before you expect to depart.

Researching the Options

The range of study abroad programs available is considerable. Many programs focus on specific academic disciplines, while others feature both academic and language study. A number of programs combine independent study or internships with traditional coursework.

Your choice of program should be determined by a realistic assessment of your academic preparation and objectives. If you are currently enrolled at a US college or university, be sure to consult with either a study abroad or Fulbright Program adviser, or a faculty member knowledgeable about foreign study programs. The adviser can help determine whether the programs you are considering will mesh with your educational goals—and whether you will receive academic credit for them.

It remains *your* responsibility, however, to research the alternatives thoroughly: contact the designated persons or departments to request program literature, ask specific questions and obtain and review background information on the country you plan to visit. Get in touch with previous participants in programs that interest you. Meet with students from other countries to learn what it is like to be a foreign student. Allow plenty of time for this research—and expect to discover exciting educational possibilities.

Language Proficiency

Foreign language proficiency is perhaps the single most important factor in choosing where to study. Be completely realistic about your level of competency. Holding a simple conversation or ordering a meal in another language is one thing; following a complicated lecture and reading scholarly books is something else entirely.

US college-sponsored programs may be conducted in cooperation with a foreign institution or may be taught by foreign faculty. In such cases, the language of instruction is typically the language of the host country. The minimum requirement for most US-sponsored programs is two years of college-level language study or the equivalent.

Study abroad offers an incomparable opportunity to learn the language and culture of another country. This book provides information on language and culture/civilization programs available worldwide.

Geographic Location

Geographic setting may be as important as academic characteristics in determining whether a program is appropriate for you. Large cities offer excellent cultural opportunities but are expensive and impersonal. Small towns offer more contact with local residents and a traditional way of life, but some students find the provincial lifestyle too limiting.

No foreign study program can be a guaranteed perfect choice. Even when your needs are well matched to the program, you may suffer periods of loneliness and disorientation simply because of the unfamiliar environment. Remember that one of the most important lessons to be learned from time spent abroad is flexibility—and a willingness to go on enjoying and learning even when confronting unexpected circumstances.

Developing Nations

Study in developing nations can be especially meaningful for a variety of reasons. The fact that nearly three-quarters of the world's population live in these nations is bound to have a significant effect on the course of history. From an economic standpoint, it is worth noting that US trade with developing countries now approaches 40 percent of all US imports and exports. In today's economically interdependent world, knowledge of developing nations may prove to be a tremendous career asset.

In addition, the cultures of developing countries pose a sharp contrast to that of the United States. They effectively challenge our customary assumptions about our own society and values and provide a unique perspective on our larger world role.

One legacy of colonialism in developing countries is that the language of instruction is often English, Spanish or French rather than the native tongue. This generalization does not apply, however, to countries like China, which has an extensive scientific and technical literature of its own, and which draws large numbers of students to study its literature, languages and cultures.

Disabled Students

Many educational institutions provide facilities for the handicapped. The extent to which these students can be accommodated, however, depends on the nature of their disabilities and the subject to be studied. Because disabled students may require special educational aids or services, they should discuss their needs with the program sponsors and investigate the possibility of obtaining supplementary funds to cover the costs of services required.

Information for the handicapped traveler is available from the US branch of Mobility International (MIUSA), which publishes a newsletter and several booklets. For full details, write to MIUSA, PO Box 3551, Eugene, OR 97403.

Adult Learners

While most study abroad programs are organized with the needs of college students in mind, a significant number admit adults with a personal or professional interest in study overseas. This is particularly true of summer and short-term programs, many of which are sponsored by adult or continuing education schools. The listings in IIE's study abroad guides indicate whether a program admits adults and/or professionals. Even when the entry indicates that the program is geared to the undergraduate or graduate level, it may be worthwhile to contact the sponsor to see if adults can be admitted as auditors.

Adults over the age of 60 may be interested in the international programs of Elderhostel, which combine the best traditions of education and hosteling for those of retirement age. For information, write to Elderhostel, 75 Federal Street, 3rd Floor, Boston, MA 02110-1941.

The Interhostel program of the University of New Hampshire is designed for those age 50 and over. For details, write to Interhostel, Division of Continuing Education, University of New Hampshire, 6 Garrison Avenue, Durham, NH 03824-3529.

Educational Choices

Before enrolling in a foreign study program, you must determine its effect on your degree and graduation requirements. Your advisers can help evaluate study abroad in relation to your academic needs and may assist in arranging credit.

US college-sponsored programs generally award credit. Never assume, however, that credit will be granted automatically, or that you can wait until you complete the program to establish credit. Each school makes its own rules regarding transferable credits, and, if the program you select is not sponsored by your home institution, academic credit may not be accepted by it.

Once a proposed study program is approved by your adviser—and prior to departing from the United States—follow your school's specific procedure to ensure receipt of credit. It is strongly recommended that you secure a written document confirming that credit will be awarded. At some colleges or universities this may be done through the study abroad office. At others, it will be handled by the admissions office or registrar. If there is no study abroad adviser, your academic adviser can provide information.

Many US colleges and universities allow students planning to study abroad to preregister for courses to be taken upon their return. This option should also be discussed with your study abroad adviser prior to departure.

Types of Study Abroad Programs

Most undergraduates enroll in programs sponsored by their own or other US colleges. One advantage of US college-sponsored programs is that they allow students to study in a foreign environment while remaining within a US academic framework. Even where much of the actual coursework is taken at a foreign university, academic credit is arranged through the sponsoring US institution. In addition, special courses in the language and culture of the foreign country may be provided, and language requirements may be relaxed. Finally, the sponsoring college usually either provides or helps arrange nonacademic essentials, such as housing and round-trip transportation.

Most programs fall into one of these categories:

1. Study in a foreign institution combined with courses arranged for the group by the sponsoring US institution.

These programs usually require some knowledge of the language of the country. Nonetheless, special university courses for US or other foreign students generally have less exacting language requirements than regular university courses. And some programs offer a choice of foreign institutions, depending on the level of the student's language skills.

One benefit of this type of program is that it lets you study at a foreign institution while meeting requirements for your US degree. It also offers readily available help with any difficulties you may encounter in the foreign courses.

2. The fully integrated program at a foreign university or other college-level institution.

Students enroll in regular academic courses in the foreign institution, where fluency in the language of instruction is expected. Students must be able to follow lectures and take examinations along with natives of the country. These programs can be very exciting and challenging for students who qualify.

Since students enrolled in these programs will not have the opportunity to take any US courses overseas, they must be sure to schedule required coursework at their home campuses.

3. The "island" program, in which all courses are arranged for the US group and taught by faculty members of the sponsoring US school or by foreign faculty engaged specifically for the program.

Some of these programs offer intensive language study for language majors. More often, however, these programs are conducted largely in English. In many areas of the world, they offer the only opportunity for meaningful study for students without a good command of a foreign language.

An advantage of this type of program is that the sponsoring US institution has as much control over the nature and quality of instruction as it has at home. The chief disadvantage is that US students are isolated from the foreign academic milieu and may find themselves isolated socially as well.

A few programs offer only independent study opportunities, in which qualified students carry out preapproved research projects abroad and receive credit from their home institutions. In others, US students enroll in foreign universities and receive credit from their own schools for coursework abroad. Independent study arrangements like these are made on an individual basis by the students and their schools.

Sponsorship by Consortia

Many of the programs listed in IIE's study abroad guides are sponsored cooperatively by groups of US colleges or consortia. Some are administered through central consortium offices, others by the participating schools which rotate administrative duties among themselves.

It is unlikely to make any real difference to the student whether a program is offered by one school or by a consortium. The chief advantage of cosponsorship is that a consortium may be able to offer specialized programs that individual schools find difficult to provide. See **Index II** for lists of consortia and their member schools.

Direct Enrollment

It is also possible to enroll directly in many foreign universities. Direct enrollment is an option more often chosen by graduate students than by undergraduates, both because graduate students are more likely to be able to profit from specialized study programs abroad, and because many foreign universities require that new US students already possess a bachelor's degree.

To enroll directly in a foreign university, look into the laws affecting higher education in the country where you plan to study. Some countries have quotas for the number of international students at their universities and restrictions on the numbers of foreign students admitted to particular fields, such as medicine, dentistry, the sciences and law. Because such restrictions may change from year to year, investigate current regulations early in the planning process.

Since admission policies vary from country to country and institution to institution, it is advisable to write directly to institutions you are interested in for specific information on their policies, requirements, costs and facilities. Addresses of foreign institutions can be found in *World of Learning* or the *International Handbook of Universities*, reference directories on higher education worldwide that can be found in many US college and university libraries. To ensure a response, enclose an International Reply coupon (available from any Post Office) with your inquiry.

Remember that, since educational systems vary, no foreign degree is exactly equivalent to a US degree. If you are interested in graduate studies abroad, be sure to conduct extensive research on the educational systems of the countries which interest you. Study abroad advisers can be invaluable in helping you acquire the information you need to make a decision.

Another useful source of information is the *World Education Series*, published by the American Association of Collegiate Registrars and Admissions Officers (AACRAO). Although designed for college admissions officers who need to evaluate foreign academic credentials, these publications provide an overview of each country's educational system. Write AACRAO, One DuPont Circle, Washington, DC 20038, for a complete list of titles.

Vacation Study Programs

A study program abroad is a highly productive way to spend a vacation, whether from school or work. Many colleges, language schools and other organizations offer a variety of summer and short-term programs that provide serious academic study for college students, heritage courses for adults interested in finding their roots, technical programs for professionals and a wide range of courses for those who simply want to expand their horizons.

IIE's *Vacation Study Abroad* lists over 2,200 such programs, most of which take place during the summer. Recognizing that the desire to learn knows no age or season, however, many organizations now offer study tours and other programs throughout the year.

Internships

Many foreign study programs feature internships designed to provide hands-on experience in a particular field, with placements at museums, schools, government offices, international organizations, etc. Most are developed in close consultation with faculty advisers and are tailored to suit the special needs of the student. An internship's success depends almost entirely on the initiative and creativity of the student.

Because of the growing popularity of internship programs and the special arrangements they involve, you must apply for a position and begin making arrangements well in advance. As with other types of programs, don't forget to clarify issues of cost, credit, salary and housing. Use **Index IV: Special Options** in this book to locate internship listings.

Voluntary Service Projects

International service projects offer opportunities to young people from all over the world to live and work together with local people in community development. Usually, no special skills are required. Many projects take place during the summer for short periods, but it is also possible to participate in semester or academic year programs for which academic credit can be arranged. There is no pay, but volunteers generally receive room and board. Good sources of information on volunteer service are the Council on International Educational Exchange and the Partnership for Service-Learning. Contact CIEE International Workcamps, 205 East 42nd Street, New York, NY 10017, and Partnership for Service-Learning, 815 Second Avenue, Suite 315, New York, NY 10017.

Finances

Establish a budget to help determine which programs meet both your academic needs and financial capacity. Package fees for programs sponsored by US colleges generally include transportation to and from the United States, tuition, fees, room and board and program-related travel. Other major items are books, local transportation and health and accident insurance.

Be especially careful to find out what program package fees do *not* cover. Admissions to cultural sites and events, gifts, optional travel, bank charges for exchanging money and miscellaneous personal expenses are rarely included and can add up to a considerable sum. Always set aside some money for unexpected contingencies; they invariably occur.

The program costs listed in this book should *always* be viewed as approximate: they were submitted to IIE some 12 to 18 months prior to the actual program dates. Inflation and fluctuations in exchange rates over this period of time may force significant changes in these figures. Again, it is your responsibility to confirm program costs by contacting the sponsor directly.

Large amounts of cash should not be carried abroad. Traveler's checks are available in US dollars and major foreign currencies. International charge cards and bank credit cards can also be used to avoid carrying large amounts of cash. In some countries, hard currency restrictions limit the amount of foreign currency which can be changed back into US dollars, particularly if the original exchange receipts have been misplaced. Do not under any circumstances exchange money on the black market.

Scholarships

At present, most financial assistance available for study abroad is for graduate and postgraduate study. Undergraduates with regular university scholarships, however, are generally allowed to use them for their own school's overseas programs. Your study abroad adviser, financial aid officer or bursar can advise you on the possibility of using federal and state aid for foreign study.

Work Abroad

The practice of working one's way through college is not common overseas, although some study programs include nonpaid work experience. Part-time work-study and trainee positions, which pay a small salary, are occasionally available, but cannot be relied upon to cover the bulk of your expenses overseas.

Summer work programs geared towards students, trainees and volunteers characteristically offer room and board rather than a salary. Archaeological excavations, for example, often fall into this category.

Foreign labor laws are often highly restrictive. Be sure to investigate them thoroughly if you plan to seek work abroad—and don't plan to rely on work in the private sector to pay your way.

The Council on International Educational Exchange has organized a work abroad program with the cooperation of several nations. Academic credit is sometimes available through special arrangement. For information, contact CIEE Work Abroad, 205 East 42nd Street, New York, NY 10017.

Travel and Living

After selecting a study program, it is time to prepare for life in a foreign country. Your study abroad experience will have greater personal value if you take an active role in learning about the language, history and culture of the country, as well as current social and political conditions.

Attend any orientation sessions offered by your program sponsor. The history and culture of the host country are usually reviewed in some detail. There may also be language exams and assigned readings. And you may have the opportunity to ask questions about issues that confuse you before they present real problems.

Books, periodicals, plays, films and museum exhibits can provide additional information, as will the embassy, consulate or tourist office of the country in which you plan to study.

People encountered abroad are frequently curious about the United States. As a consequence, you can expect to be hit with a barrage of questions about US history, economics, culture, government policies and current events. To be forewarned is to be forearmed!

Laws and Customs

Orientation sessions usually review the more important laws and customs students must comply with. These are not empty warnings. One of the biggest mistakes you can make is to assume that behavior and actions acceptable in the United States are appropriate everywhere, or that other countries will excuse inappropriate or illegal acts simply because you are a foreigner.

In many countries, for example, local cultural values dictate that certain parts of the body be covered, particularly in sacred places. Flouting such customs is perceived as a deliberate affront. In such situations, verbal protestations can escalate into threats or physical assaults. This is particularly true if the US student is thought to be indifferent to the initial objections.

It is important to realize that civil rights issues are simply not involved. US notions regarding freedom of speech and expression have no parallel in many countries. Even where the potential for violence is not an issue, students should realize that inappropriate behavior will tend to alienate them from the local populace.

Close adherence to the laws of the country in which you are living or traveling is even more important. It is unwise to rationalize that you are committing only a minor infraction when exchanging money on the black market or making purchases for foreign friends in hard currency shops that are off-limits for natives. Breaking the law—even a repressive, irrational or antiquated one—is *still* breaking the law and can lead to severe penalties. At the very least, you can expect to be expelled from the program and deported from the country. US programs are there at the sufferance of their hosts, and sponsors will not risk their programs to protect law-breaking students. Do not expect special intervention from US consulates, either.

Narcotics laws are strictly enforced overseas, particularly when the offenders are foreigners. Harsh sentences, including life imprisonment or death, are not unknown, even in countries where natives may break such laws with impunity.

Warnings aside, there are few pleasures to compare with the experience of forming friendships with people who have spent their entire lives in a different milieu and who can communicate whole new perspectives on the most ordinary of life's experiences. Be sensitive rather than brash, and discover what life is like for others on this planet.

Accommodations

Student housing is difficult to find almost everywhere. Dormitory space is often so limited that many foreign universities have strict quotas for the number of rooms allotted to international students. Generally, US students live in apartments, pensions, student hostels or with families. Be sure to find out whose responsibility it is to make housing arrangements. Check with the program sponsors to see what arrangements they have made, and investigate the available alternatives. And remember to confirm all housing arrangements well ahead of departure.

Passports, Visas and Vaccinations

Valid passports are required for travel abroad. You may apply in person to a passport agent at US Department of State agencies in Boston, Chicago, Honolulu, Houston, Los Angeles, Miami, New Orleans, New York City, Philadelphia, San Francisco, Seattle, Stamford (Connecticut) or Washington, DC. Passports are also issued through selected post offices, or by clerks of any federal court or state court of records. Proof of US citizenship (birth certificate, naturalization certificate, or previous US passport), two recent photographs (2" x 2") and current identification with a personal signature and photograph or physical description (such as a driver's license) are required. Social security cards are not acceptable.

For citizens 18 years or older, a passport valid for ten years costs $60. A five-year passport for citizens under 18 is $40. You must appear in person if you are applying for the first time, are renewing a passport issued over twelve years ago or were younger than 16 when your last passport was issued. Apply early: processing an application takes *four to six weeks*—longer during the travel season.

A visa is written permission to visit a country granted by the government of that country. Visa requirements vary from country to country and are fully described in *Visa Requirements of Foreign Governments* (Publication M-264) available at any passport agency or by writing to: Office of Passport Services, Room 386, 1425 K Street NW, Washington, DC 20524.

Anyone planning to study in a country for an extended period of time may need to get a special student visa. Information relating to all visas may be obtained from the nearest embassy or consulate of the country concerned. Many visa applications require that you submit passport-type photographs to be kept on file or incorporated into the visa itself. It is always wise to obtain extra prints of your passport photographs for such purposes.

AIDS testing or vaccination certificates for inoculation against yellow fever or cholera are required by some countries. Check current regulations with your local public health department.

Medical Insurance and Other Health Concerns

The importance of having adequate insurance when visiting another country cannot be overestimated. Before leaving the United States, check your medical and accident insurance policies to be sure they are valid while traveling overseas. If coverage does not extend to travel abroad, you may want to obtain supplemental medical and accident policies. Holders of the International Student Identity Card receive basic medical/accident insurance coverage for their travel outside the continental United States.

While it is easy to stay healthy abroad, in certain countries this requires taking some elementary precautions. Some countries, particularly those in tropical regions, have bacterial, fungal and parasitical diseases which can be difficult to cure. Do not hesitate to ask about these during orientation sessions, and take the advice seriously.

If you require prescription medicines, even intermittently, be aware that foreign drugs are not necessarily closely related to those standard in the United States. Drugs may be marketed under different names and may not be available in the strengths you desire. It is wise to bring an adequate supply of any medication you need. Label all bottles clearly and carry copies of the prescriptions to avoid problems with Customs. In the case of narcotic medicines, it may not be prudent to carry additional supplies because of possible Customs difficulties. Reasonable amounts of nonprescription drugs, such as aspirin and stomach remedies, can come in handy when staying in some of the more remote regions of the world.

Finally, if you wear prescription eyeglasses or contact lenses, bring an extra pair and your prescription. This is particularly important with contact lenses, because the specific type of lens you wear may not be available abroad.

Transportation

Many US-sponsored programs include group transportation to and from the program site. In others, students make their own arrangements. Government tourist offices provide a variety of free travel literature and are good places to begin researching your travel options.

Deregulation in the airline industry has resulted in a proliferation of discounted airfares. Shop carefully if you are looking for an inexpensive flight; the cheapest flight is not necessarily the one that best suits your needs. Fares that specify a return date should be examined with particular care, as these may not allow the flexibility you need.

Aim to travel lightly, especially if you will be participating in a study-tour. You will have to carry whatever you bring, so restrict yourself to one or two moderate-sized bags and a small carry-on bag in which to keep valuables, passport and camera equipment. Insure your baggage and personal effects for the full period abroad. If you bring a camera, purchase a lead-lined film bag. Contrary to airport claims, some X-ray devices are ruinous to film.

Once abroad, railroads are often an economical and convenient way to travel. In Europe and Great Britain, Eurail and BritRail passes offer unlimited train travel at considerable savings to those who travel extensively. Eurailpasses are not valid in Britain but can be used on ferries between Italy and Greece, France and Ireland, and in Scandinavia. Rail passes are available from many travel agencies and must be purchased in the United States before your departure.

If you are considering renting a car, remember that in Britain, many Commonwealth countries and Japan, cars drive on the left-hand side of the road. Your US driver's license is generally accepted abroad, but it may be necessary to supplement it with an International Driver's License, which provides a multilingual translation of the information on your US license. One may be obtained from your local AAA office.

An excellent source of information about student travel is the Council on International Educational Exchange (CIEE). CIEE publishes the *Student Travel Catalog* (available free of charge), and offers the International Student Identity Card as well as a wide range of student travel services. The International Student ID entitles the bearer to numerous discounts on transportation, accommodations, museum entrance fees and more.

Contact CIEE headquarters at 205 East 42nd Street, New York, NY 10017, or Council Travel offices.

How to Read Study Abroad Literature

The late Lily von Klemperer trained a generation of study abroad advisers as one of the most active members of NAFSA: Association of International Educators. Before and after her retirement from IIE, she brought a strong concern for ethics to her work. The following article, first printed in a NAFSA newsletter of the mid-1970's, has been reprinted frequently ever since.

How to Read Study Abroad Literature

By Lily von Klemperer

This is a sample advertisement for a summer program abroad:

TWA
Spend Your Summer in Sunny Spain
Live in a Medieval Castle
Learn Spanish at a Famous University
College Credit Available
Outstanding Faculty
International Student Body
Limited Enrollment—All Ages Eligible
Inclusive Charge
Write for Fully Illustrated Brochure
Director of Admissions
PO Box 000, Grand Central Station
New York, NY 10017

This advertisement probably never existed in its entirety. Its components, however, appear in many advertisements, posters and brochures. Advertisements and posters may have to be somewhat flashy and overstated to catch the eye. Brochures, on the other hand, should be factual, realistic and totally honest.

Let us analyze the components of the sample ad, line by line, in order to remind ourselves (1) how to read, interpret and *write* descriptive literature on study programs abroad, and (2) what questions to ask ourselves and others before enrolling in a program.

TWA. If the advertisement or brochure is "crowned" by TWA, a travel agency or a similar commercial organization, while the name of the sponsoring US college or university appears in small print elsewhere, whose program is it? And who is responsible for the program's academic standards, if any?

Spend Your Summer in Sunny Spain. A pleasant prospect! But look at the prominence of this statement and ask what the real purpose of this program is: a summer in the sun—or a summer spent studying a foreign language and culture? How many hours will be spent in class and how many on the beach? What is the curriculum? Who teaches what, where and when?

Live in a Medieval Castle. How romantic! But where is that castle? Is it near that "famous university" or will you have to commute to classes each day? Are the rooms shared or single? Are study facilities available? Are the inexpensive eating places nearby?

If family living is suggested, is it a family that has experience with US students? Will they converse with you in the language you are studying? Is the housing offered close to the center of town and cultural events? Is there public transportation after 6 pm or do students have to rely on expensive taxis?

Learn Spanish at a Famous University. Why isn't the name of the host institution given? Foreign universities generally suspend regular operations during the summer months, when their facilities may be available to anyone willing to pay the rent. The "famous university" may not actually be involved in the curriculum at all. The ad may refer to courses arranged by the sponsoring organization or to a special program for foreigners, which may or may not be organized by the host institution.

Some ads refer to "accredited" institutions or programs. To check the US accreditation of a college or university, consult *Accredited Institutions of Postsecondary Education*, published annually by the American Council on Education for the Council on Postsecondary Accreditation. Information on foreign universities is available in *The World of Learning* (Europa Publications), the *International Handbook of Universities* (de Gruyter) and the *Commonwealth Handbook of Universities Yearbook* (Association of Commonwealth Universities).

College Credit Available. The crucial questions here are (1) who makes this college credit available? and (2) does the student's home institution accept credit offered by this program?

If receiving academic credit for your studies abroad is important to you, check the brochure to see if your school is listed as a participating institution or as a school that has accepted program credits in the past. Then consult your academic or study abroad adviser *before you enroll in the program* to see whether the credits offered can be applied to your degree program.

Outstanding Faculty. Who are they? Where do they teach? What are their credentials? And, are they accessible to the students outside of class?

International Student Body. Look closely at the roster of students in the back of the brochure. Are they swelling the ranks of "international students" by listing the children of US parents residing abroad? Or will you in fact be mixing with bona fide representatives of other cultures?

Limited Enrollment—All Ages Eligible. Does the statement "limited enrollment" presuppose selectivity when all ages are eligible? How homogeneous is a program open to everybody, unless it includes classes specifically geared to the various academic levels?

It would be more helpful to know the type of student for whom the program is designed—his academic level, educational or professional background, motivation and goals.

Inclusive Charge. There are almost as many variations to this term as there are programs. Is there an estimate of total expenses? Read the small print. Find out exactly what is covered and, more importantly, what is NOT covered. For example, are there periods of time abroad NOT covered by the inclusive fee? Will you have to pay for transportation to and from classes each day?

Ask about refund policies: Is there a nonrefundable application fee? Will tuition and program fees be refunded if circumstances force you to drop out of the program?

Write for Fully Illustrated Brochure. Even organizers of high-quality programs love to publicize them with attractive photographs of breathtaking scenery, lively cafe scenes, marble columns and Gothic spires. Unless the brochure devotes equal space to academic facilities, however, one may well question whether there is any provision at all for serious study.

Director of Admissions. Is there a name of a responsible person or just a title—or not even that? If you search the "fully illustrated brochure" and find no board of advisers, no trustees listed—no names whatsoever—what conclusions would you reach?

PO Box 000, Grand Central Station. Is there a street address or just a postal number? Is there a phone number? How can one get hold of the program director in an emergency? And does a box number or street address in Ann Arbor necessarily imply University of Michigan sponsorship?

All these remarks—negative and positive—are a bid for honesty. Descriptive literature on foreign study should reflect the serious intent of the organizers. It should reflect quality, selectivity and effective academic control. A meaningful and solid program cannot accommodate all tastes, all needs, all levels of maturity. But whatever it is meant to represent should be stated clearly and honestly.

EASTERN MICHIGAN UNIVERSITY

Give us one semester, and we'll give you a big chunk of the world.

At Eastern Michigan University, we believe that study overseas should be the most broadening experience possible. So we don't limit our study-abroad programs to just one city, or even one country. Our Cultural History Tours let you really immerse yourself in the cultures of a continent. You may choose between two programs in the fall:

- Europe and the Mediterranean
  40 cities, 16 countries
- South and East Asia
  36 cites, 9 countries

It's a wonderful way to get a full semester's credit. It's also a chance to enjoy the experience of a lifetime. Visit our Web site at www.emich.edu/abroad or call us at 800.777.3541, and get out your passport.

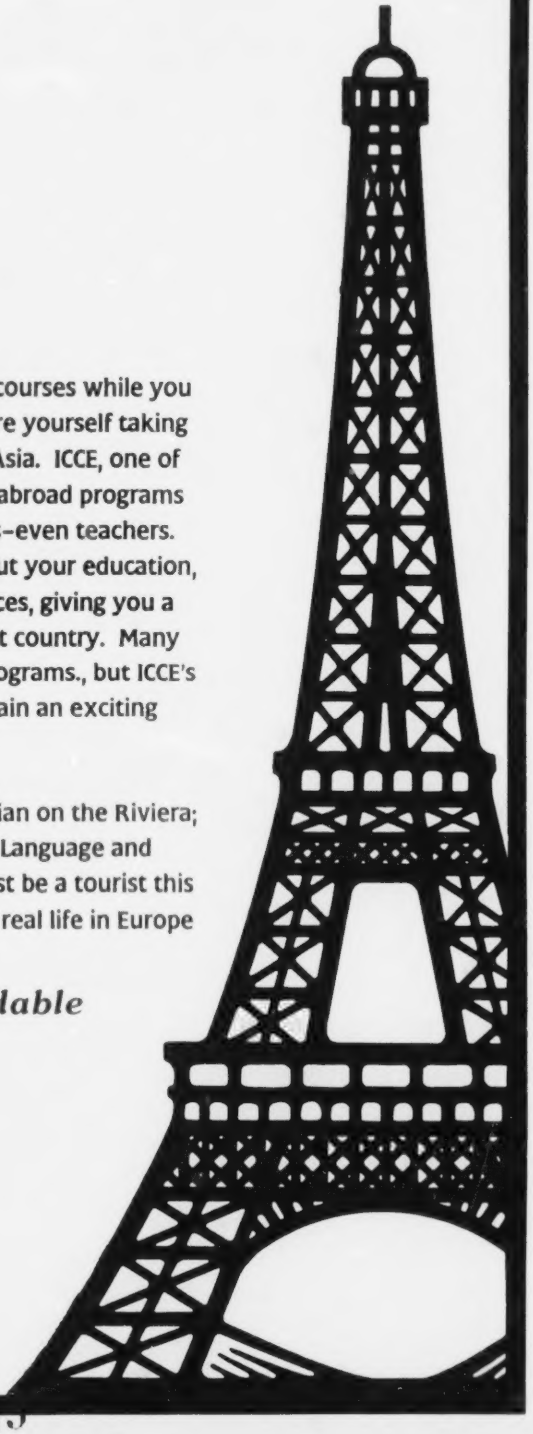
Don't Just Be a Tourist

Learn what life abroad and the World Community are really all about when you enroll in Study Programs from ICCE



Imagine yourself studying abroad, taking top-quality academic courses while you meet friendly, interesting people from all over the world. Picture yourself taking in breathtaking scenes and visiting tourist spots in Europe and Asia. ICCE, one of the leading foreign study organizations in the U.S., offers study-abroad programs for high school students, undergraduates and graduate students–even teachers. Classes may be taken for credit or for pleasure. And to round out your education, ICCE programs include valuable outside-the-classroom experiences, giving you a chance to really absorb the culture and atmosphere of your host country. Many U.S. universities and commercial agencies offer study-abroad programs., but ICCE's unique, relaxed approach offers you an inexpensive way to obtain an exciting educational experience.

Enjoy Art and Music courses in Italy and France; French and Italian on the Riviera; Spanish on the Costa del Sol, or German in Austria or Germany. Language and culture programs are also available in Japan and China. Don't just be a tourist this summer—be involved in an ICCE program and get a taste of the real life in Europe or Asia. Call or write for information today.

a fresh perspective

Beaver College

There are two opportunities to study for six weeks this summer at the University of New South Wales. *Acting for the Camera,* in cooperation with the National Institute of Dramatic Art (NIDA), is a highly personalized opportunity for you to enhance your acting abilities in front of the camera by working one-on-one with a director. *Australian Environment* offers an unparalleled opportunity to experience and to understand a variety of Australia's ecosystems. Travel throughout Australia is an important component of each program. **Call for a free catalog today.**

Study Studio Art in France with CCIS

A World of Opportunities

Marchutz School of Drawing and Painting

The College Consortium for International Studies offers students a college-credit six-week summer program at the Marchutz School of Drawing and Painting, located just outside Aix-en-Provence in the shadow of Mont Sainte-Victoire where Cézanne lived and worked.

An interdisciplinary and holistic approach to studio art, taught in English by experienced resident professional artists on the faculty of the Marchutz School-Institute for American Universities.

French homestay with breakfast and evening meal or studio apartment accommodations. Optional additional week in Paris at extra cost. Non-credit French conversation course available. Six-week program begins mid-June each summer.

a fresh perspective

Beaver College

This four-week, four-credit program is designed for students of ancient Greece who are ready to get into the field. *History and Architecture of Ancient Greece* combines classroom lectures with field study excursions to major archaeological sites of Greece. Nearly half of your "classroom" time will be spent at sanctuaries, museums and battlefields. You'll explore Athens itself, the Akropolis, the Agora and the museums which contain treasures representing four millennia of history. **Call for a free catalog today.**

a fresh perspective

Beaver College

A summer in Dublin can be an illuminating experience. Dublin is a treasure trove of history, and you can explore it all this summer. View the Book of Kells at Trinity College, one of the most beautiful illuminated manuscripts in the world. Or compose your own verses in one of the city's many parks. Beaver College's six-week, six-credit summer program is based at the Institute of Public Administration and offers courses to give you a portrait of Ireland's past, present and future. **Call for a free catalog today.**

Live and study in Spain

Experience the "Oxford of the Spanish world" four or six weeks at the University of Salamanca. Beginning Spanish classes require no previous language study. Intermediate and advanced students study literature, art, business, translation and Spanish culture. You live in a local household or University residence hall! The AIFS Resident Director organizes enrichment activities. An optional trip goes to Madrid and throughout Andalucia—Granada, Seville and Merida

a fresh perspective

Beaver College

A former student commented, "*Of all my educational experiences abroad, there is none that has affected me more both personally and intellectually -- an unforgettable experience.*" The summer program at the Institute of Economic and Political Studies in London or Cambridge is an excellent opportunity to learn about the economic, political, historical and legal issues that shape our world. The **London** Program focuses on *Political Science, Law and 20th century Europe* with the opportunity for an internship. The **Cambridge** program concentrates on coursework in *Business, International Finance, Political Economy and Economic Sociology.*

Live and study in England

Interning with international organizations is just one resumé-enhancing program you can select at Richmond, The American International University in London. A wide variety of liberal arts and business courses are offered in three, six or nine-week programs. Or study art at Central Saint Martins or Chelsea Colleges of Art and Design. Studio art and humanities courses are offered. Or study theater and Shakespeare in Stratford-Upon-Avon. AIFS plans cultural activities and excursions throughout your stay.

Study in Costa Rica with CCIS

A World of Opportunities

The College Consortium for International Studies offers two programs in Costa Rica, giving students the choice between an intensive Spanish language program and a semester program. In both programs students are placed with host families and no previous study of Spanish is required.

Centro Lingüístico CONVERSA (Santa Ana or San José)
- Short-term intensive program offered in four-week cycles throughout the year
- Maximum of five students per class and five hours of instruction per day
- Earn 6-8 credits ranging from beginning to advanced level Spanish

Universidad Veritas (San José)
- Semester program taught by bilingual faculty from the University
- Up to 15 semester credits awarded
- Coursework enhanced by Costa Rica Colloquium which includes cultural excursions

THE MISSING LINK BETWEEN CULTURES IS THE LANGUAGE

"LEARN SPANISH"

Cuauhnahuac
Esc. C.I.C.L.C., S.C.

Spanish Language School since 1972 in Cuernavaca, México.

WHAT MAKES CUAUHNAHUAC SPECIAL?

- 28 years of teaching Spanish intensively
- Classes begin every week at all levels, including courses designed to meet your particular needs
- Six hours of classes daily
- Small, intimate grammar classes, often one-on-one, but never more than four students to a class
- Outstanding staff with many years of experience and extensive training in our own method of teaching Spanish intensively
- Personal attention and flexibility in order to meet your individual needs
- Special classes for people in different professions
- University credit available
- Convenient location with beautiful spacious grounds and a large swimming pool
- Housing with a Mexican family who really cares about you and who will give you the opportunity for additional conversation practice
- Interesting and varied excursions to historical sites and recreational areas
- Individual or group Spanish-English conversation exchanges with Mexican students

"Not only is this the best way to learn Spanish, but it's a great vacation as well." Phylis Feinstein, Patient Advocate, St. Barnabus Hospital.

"The families are really kind and warm. They are an extension of your own family." Joe Mulroney, Seminarian, Vatican City.

"Northeastern Illinois University has been sending students to Cuauhnahuac for 20 years. They improve their language skills and also broaden their knowledge of Mexican culture. Many have gone on to successful careers where their command of Spanish is most beneficial." Dr. Valeska Najara, Spanish Professor, Northeastern University.

a fresh perspective

Beaver College

Our program is sponsored in conjunction with the Autonomous University of Guadalajara. This summer program is devoted to the intensive study of the Spanish language over the course of four or eight weeks. As a student at the University, you'll build your Spanish skills at any level. Students taking part in session I will also enroll in a related course in Mexican culture. You'll live in a carefully-selected Mexican household, so you can practice your skills on and off campus. **Call for a free catalog today.**

Index I: Sponsoring Institutions

Programs are indexed alphabetically by sponsoring institution. References are to sequential book entry numbers, not to the page on which the sponsor's entry appears.

If provided by the sponsor at the time of information-gathering, the URL (Uniform Resource Locator) indicating the program sponsor's home page address on the World Wide Web appears after the name of the sponsoring institution. Please keep in mind that this information was current at the time IIE conducted its research for this book. At publication, some addresses may have changed in this evolving area of media technology.

Study abroad programs with up to three sponsors are indexed by the name of one, two or three sponsor organizations. Other programs are sponsored by larger groups of colleges and universities, or consortia. **Index I: Sponsoring Institutions** identifies these programs by the name of the consortium only. **Index II: Consortia** lists the member colleges and universities of each consortium that sponsors a program.

Index II: Consortia

Many programs are sponsored by consortia of colleges and universities. This index lists the member institutions of all consortia that sponsor programs in this book. For the book's purposes, a consortium is a group of more than three colleges and universities that jointly offer a study abroad program.

If provided by the consortium at the time of information-gathering, the URL (Uniform Resource Locator) indicating the consortium's home page address on the World Wide Web appears after the contact address. Please keep in mind that this information was current at the time IIE conducted its research for this book. At publication, some addresses may have changed in this evolving area of media technology.

Students enrolled at a member institution of the consortia listed below should typically apply for admission through their home campus. Others should apply to the administering school or consortium office.

Index III: Fields of Study

Programs are indexed by field of study, and by country within field. Most fields of study are as given in the *Classification of Instructional Programs of the National Center for Education Statistics*. However, IIE has adapted the classification to accommodate the especially rich study-abroad opportunities in languages, civilization, culture, and other subjects specific to international study, adding a number of additional fields to the basic set.

Index IV: Special Options

Most programs in this book are intended for undergraduate students beyond the first year. However, a substantial number of programs offer graduate credit, or will accept freshmen or precollege students, or provide special opportunities for teachers, adults and professionals. This index can help to identify study opportunities for the many study abroad candidates who are not upper-level undergraduates.

Users of this book can also use this index to find programs that offer study options other than the typical academic lecture, seminar or tutorial. Indexed below are such options as art studios, directed field study, independent study, internships, practical training, student teaching, study tours and voluntary service.

Index V: Cost Ranges

Use this index for approximate guidance only. Programs are indexed on the lowest cost option they offer as a package fee, which is virtually always for the shortest period of study offered.

Each range indicates specifically whether international travel is included in the cost or not. However, readers must consult individual program entries to determine what else is included in the program fee. Tuition, housing, food, fees, insurance, books and materials, and international and local transportation are the basic categories of expenses incurred in studying abroad. Program fees may include all or only some of these costs.

Remember that IIE conducts the research for this book approximately one year before actual program dates. Program sponsors have the option of providing current actual charges or projected fees for the year covered by this book. Entries indicate which year's charges are provided.

Programs sponsored by foreign organizations often provide their costs in foreign currency. Because of exchange fluctuations, it is not useful to provide dollar equivalents for prices stated in foreign currencies. Use exchange rates current at the time of application to calculate approximate costs.

All applicants are well-advised to contact the program sponsor directly for the most up-to-date information on program charges before making a decision. Although program sponsors typically seek to stabilize prices, many factors can influence the cost of an international program. Contact the program sponsor for final information.

Index VI: Duration

Vacation Study Abroad provides information on programs of varying length that take place in the summer—and on short-term programs in the fall, winter and spring. (IIE's companion volume, *Academic Year Abroad*, describes programs that last one or more academic terms.)

Use this index to identify programs that offer study opportunities for the period of time you have available. Remember that short-term study can be scheduled during interim sessions, academic holidays or semester breaks during the academic year as well as in the summer. Adult students, professionals and others not bound by the traditional US academic calendar will find opportunities year-round, including many courses that can be taken for varying lengths of time at any season.

National Security Education Program

NSEP

Scholarships for Study Abroad

Why Study Abroad?

International experience is crucial to a competitive resume. You need skills to work in the global arena. NSEP provides opportunities for Americans to study in Asia, Africa, Eastern Europe and the NIS, the Middle East, Latin America and the Caribbean. Scholarship amounts are up to a maximum of $8,000 per semester or $16,000 per academic year.

You must be a U.S. citizen and enrolled as an undergraduate at a U.S. university, college or community college. Scholarships are for study in Summer '00, Fall '00 and/or Spring '01. For applications, contact your NSEP Campus Representative or the NSEP office at tel: (800) 618-NSEP, e-mail: nsep@iie.org.

Deadline: February 7, 2000.

Vacation Study Abroad

2000/2001

50th Anniversary Edition of
IIE's Complete Guide to Summer
and Short-term Study

Over 2.200 programs.

Vacation Study Abroad describes programs sponsored by U.S. and foreign universities, language schools and a wide variety of other organizations.

The standard reference on study abroad.

IIE's *Vacation Study Abroad* and *Academic Year Abroad* are U.S. higher education's standard information resources on international study, used by students and academic advisers nationwide. U.S. undergraduates and adult learners will find information on programs that combine travel and study in Eastern and Western Europe, Asia, Africa, Oceania, the Middle East and the Americas—over 70 countries worldwide.

Now complemented by the most comprehensive U.S. education abroad website. Added features include even more current program information provided by sponsors—plus the ability to save multiple searches.

Educational opportunities for undergraduate and adult learners.

Contains many programs open to precollege students, graduate students, teachers, professionals, senior citizens and other adult learners as well as undergraduates. Learning options range from lecture courses and intensive language immersion to internships, student teaching, field research and voluntary service.

500-plus pages of indexed data on:

- Costs and fees
- Academic credit
- Eligibility and academic levels
- Fields of study
- Availability of scholarships and work study
- Dates and durations
- Languages of instruction
- Housing
- Contact, e-mail and website addresses
- Phone and fax numbers

A publication of the Institute of International Education.

The largest U.S. higher education exchange agency, IIE is a nonprofit organization with over 600 college, university and nonprofit members in the U.S. and abroad.

An order form is enclosed for additional copies of the book and IIE's companion guide to study abroad, *Academic Year Abroad 2000/2001*.
